**AUTOMOTIVE AND  
INDUSTRIAL APPLICATIONS**

# MOHINDRA FASTENERS LIMITED

Established in the year 1997, MFL has been catering to the Automotive and Industrial fasteners needs in India and abroad. The company's infrastructure is spread across two state-of-the-art plants, at Rohtak, Haryana, with latest equipments for manufacturing High Tensile Fasteners.

## ENGINEERING & MANUFACTURING

An Experienced Engineering team and in-house tool designing & development ensures smooth functioning of all the operations.

MFL has combination of Multi-station Cold Forging Machines, Hot Forging Machines and CNC turning centres, aided by in-house tool designing and production centre. The Heat Treatment and Surface Finishing Departments are equipped with Automatic PLC controlled continuous Lines, having on-line quality checks and real time Data Monitoring Software in accordance with the stringent Automotive and Industrial norms. The in-house laboratories and Inspection Departments are equipped with sophisticated instruments like Vickers Hardness Tester, Contour-graph Measuring Machine (CMM), Optical and Eddy-current High speed sorting machines and more.

## QUALITY & MANAGEMENT SYSTEMS

MFL's operations are conforming to ISO 9001:2008 and TS16949:2009 certifications. An integrated QMS ensures products traceability from the raw material stage to the customers' door steps, in addition to meeting the internal Quality Objectives.

MFL has in house policies for minimizing environmental risks, avoiding wastages, encouraging active re-cycling, promoting energy saving measures and same is certified as per ISO 14001:2004 and OHSAS 18001:2007
